that it is rolling out OpenThread, an open source reference code implementation of the Thread networking protocol created in 2014. Last Wednesday, Nest published the source code for its implementation of the new OpenThread protocol on Github under a three-clause BSD license, allowing anyone to reuse, modify or redistribute it in source or binary

Powering the AI Factory

“The next industrial revolution has begun. Companies and countries are partnering to shift the trillion-dollar traditional data centers to accelerated computing and build a new type of data center – the AI factory – to produce a new commodity: artificial intelligence,” Jensen Huang, CEO of Nvidia, announced during his Computex keynote in June 2024. Originating [...]
